Daniel Martín Guerrero

BSc in Physics (2025–2029) · Faculty of Sciences, Universidad de Salamanca · Salamanca, Spain
+34-644 419 365 · daniel.martgue@usal.es · tiktok.com/@_.danielmg · letterboxd.com/danielmtg

Education

Universidad de Salamanca (USAL) | *BSc in Physics, second year – expected June 2029* 2025 – Present

- Highest Honours in *Physics Laboratory*.
- Coursework: linear algebra and geometry (tensors, sesquilinear forms), mathematical analysis, differential equations and physical modelling, classical mechanics and waves, electromagnetism, thermodynamics, data analysis and uncertainty quantification.

High School Diploma (Bachillerato) | *Science and Technology track, IES Federico García Bernalt* 2023 – 2025

- Graduated **with Honours**, GPA **9.88/10**; university entrance examination (PAU) **13.378/14**.

Science Communication & Outreach

Radio USAL – *Eureka*, science outreach programme | *Scriptwriter & Presenter* 2026 – Present

- Created *Cosmosofía*, a segment bridging astrophysics and the philosophy of science, for the University of Salamanca's official radio station (Supernova Astronomy Association).

TikTok – @_.danielmg | *Content Creator* Ongoing

- AI-assisted physics and mathematics videos, from astrophysics and thermodynamics to Sylvester's law of inertia, differential forms and the generalised Stokes theorem.

European Researchers' Night – Universidad de Salamanca | *Outreach Activity Leader* Sep. 2026

- Ran the public astronomy activity *Houston, tenemos un telescopio* (3 h, certified by UCC+i).

Talks

XXX International Congress of the Castilian-Leonese Society of Philosophy | *Speaker* Nov. 2025

- *Como lágrimas en la lluvia* (*Like Tears in Rain*), in the session *Anthropocentrism and androcentrism as a limit of compassion*; congress *Límites del presente*, USAL, Salamanca.

XXI Philosophical Olympiad of Castilla y León, USAL | *Invited Speaker & Panellist* Feb. 2026

- *The Shipwreck of Light: on the lucidity of delirium – Don Quixote, Myshkin and the aesthetics of goodness.*

Book presentation of *Salvar a Sócrates* with author Eduardo Infante | *Panellist* Jun. 2026

Independent Study & Projects

Quantum Mechanics and Quantum Computing | *Independent study* 2026 – Present

- Authored LaTeX notes on Hilbert spaces, Dirac notation, observables and the Born rule; studying qubits and quantum logic gates.

AI-Assisted Modelling Workflow | *Personal project* 2025 – Present

- Use Claude Opus 5.5, Gemini, open-source LLMs and NotebookLM for study notes, physical simulations and modelling, from parametrised manifolds to least-squares fits.

Honours & Awards

- University Access Award, Universidad de Salamanca – top 100 entrance-exam scores; full first-year tuition waiver 2025
- Finalist, Philosophical Olympiad of Castilla y León – philosophical dissertation, two consecutive editions 2024, 2025
- Participant, PLANCKS 2027 – international theoretical physics competition Upcoming

Memberships

Optica (Individual Member) · OSAL Student Chapter (Optica, USAL) · Supernova Astronomy Association · Student Group of the Royal Spanish Physics Society (GdeE–RSEF), Salamanca delegation

Skills & Interests

Programming	Python, MATLAB, Arduino (C/C++), HTML (basic)
Lab & Tools	Breadboard circuits with Arduino and LabVIEW, Mathematica, PHYWE measure, SAOImage DS9, LaTeX
Languages	Spanish (native), English (advanced, C1-level training)
Interests	Astrophysics, optics and photonics, particle physics, philosophy and cinema
